FIRE-SAFE FILES

FIRE

**FIRE
COSTS
TOO
MUCH!**

A fire that destroys business records is too costly!

There's an even chance that a fire in your office tonight means you're out of business tomorrow! Hard facts show that loss of records causes loss of business in almost 50% of business fires.

A fire-proof building is no assurance an inside office cannot be destroyed . . . in fact such a fire may be even more severe than otherwise, as the construction features that make a building "fire-proof" serve to make an interior fire more intense.

A Schwab Fire-Safe File will keep records safe. They will be usable as soon as the outside of the file has cooled enough to handle.

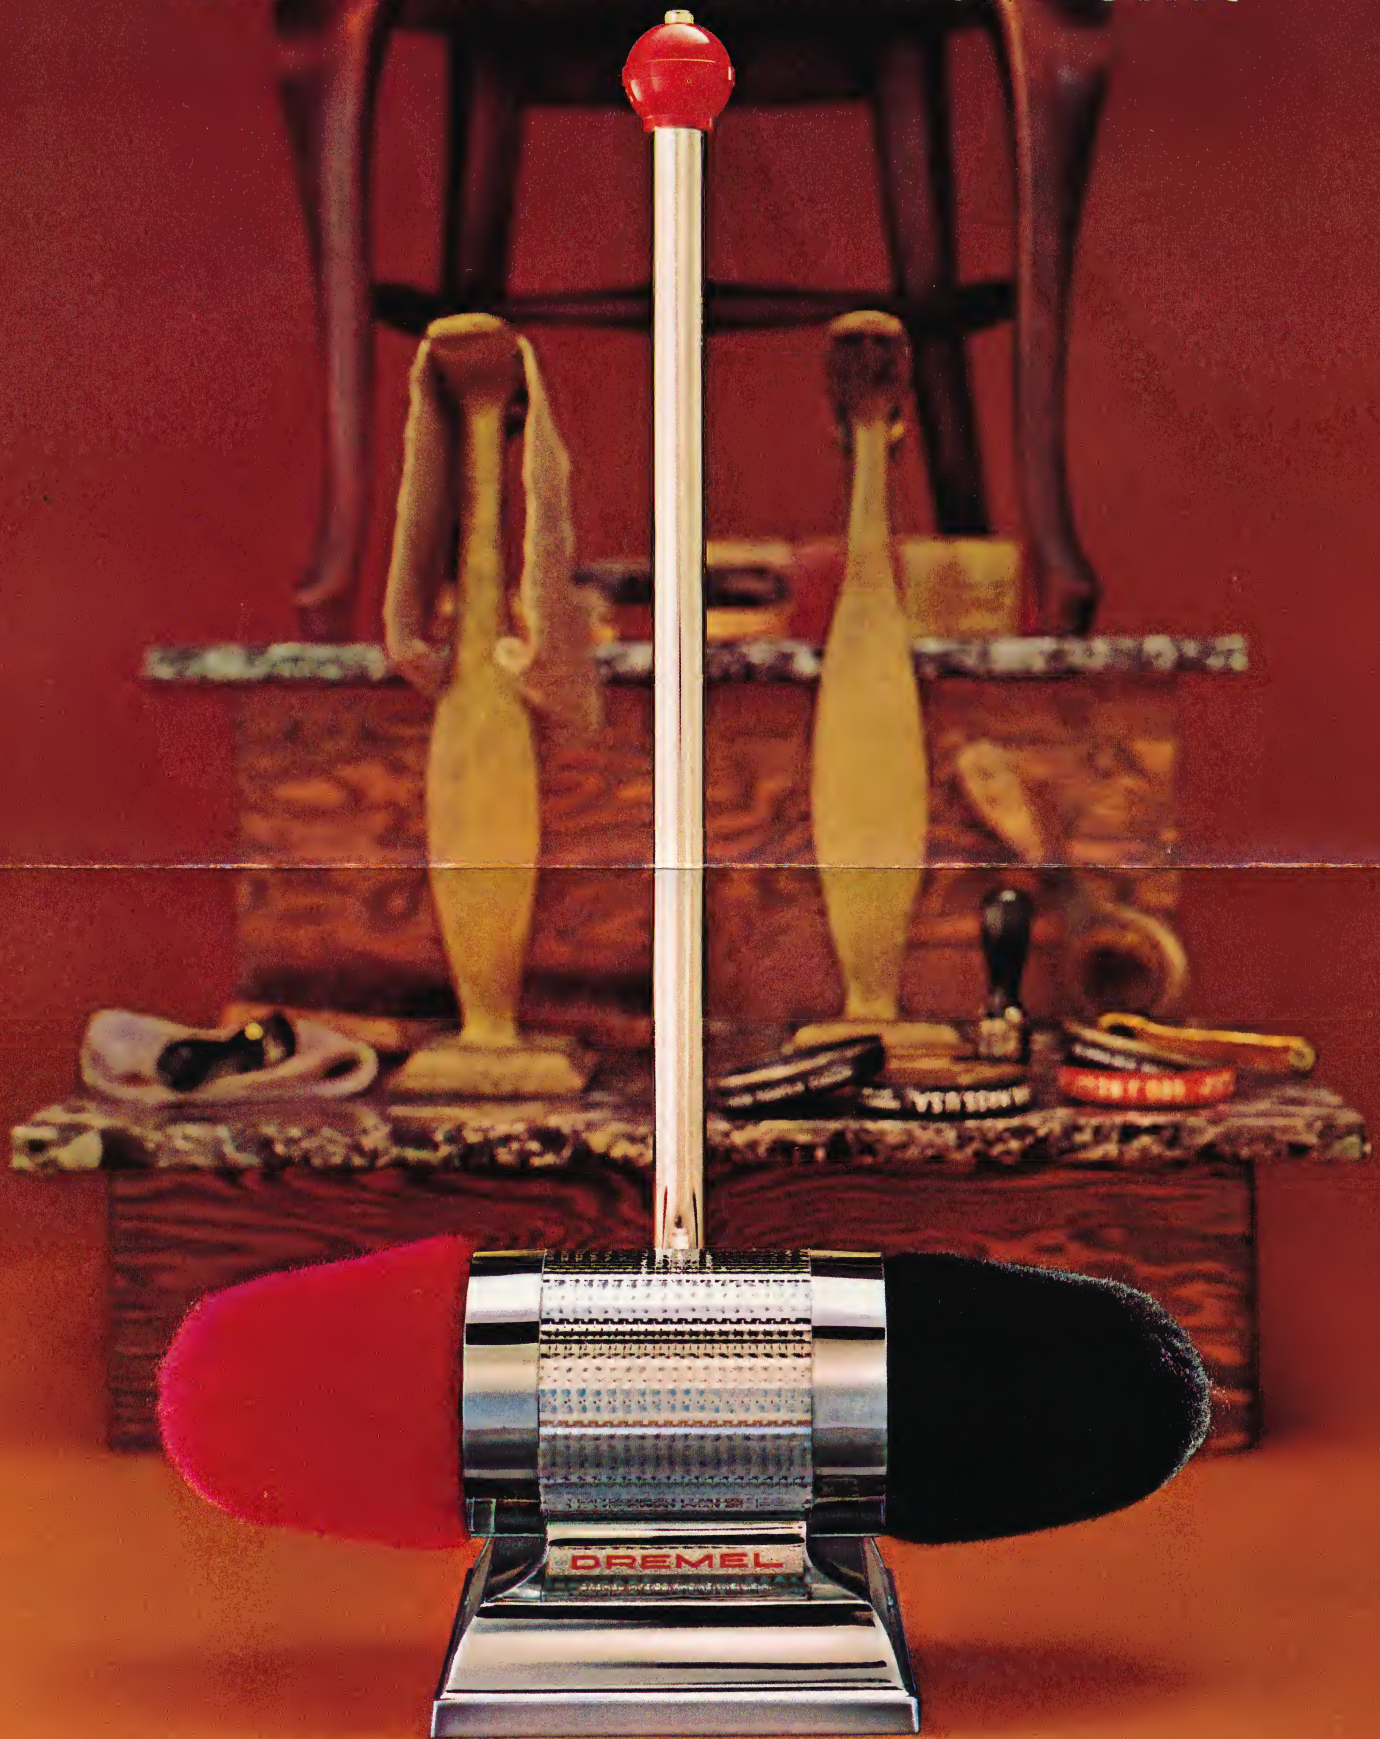

Order files, accounts receivable and payroll records will still be there, ready for business as usual. Also quickly available will be the records to back up insurance claims.

Schwab files are tested at Underwriters' Laboratories at temperatures reaching 1700° F in one hour. The "C" Label has also passed impact and drop tests, simulating a fall through three burning floors. And, due to our own specially developed insulating processes, they are the *lightest weight* files that are available, meaning less freight cost and less floor load.

An insulated file can save your business

When was the last time you saw one of these coins? RARE U. S. COIN SETS!

From the distinguished "Limited Edition" Fidelity Collection

You seldom see these coins today except on display in museums or private collections. You can expect their value to increase as their availability continues to decrease. A limited number of choice sets is available now while the supply lasts. If you are a collector, historian, investor . . . or simply want to own, or give, exceptional unique gifts with a value that will keep on growing, take advantage of this exceptional opportunity now!

24 COIN U. S. A. 20TH CENTURY COIN SET

A magnificent historical collection. Each coin portrays either "Miss Liberty" or a great statesman in American history and proudly bears the word "Liberty" on its obverse. 24-coin set includes the ultra-scarce 1909 VDB Lincoln Penny, the famous Silver Kennedy Half Dollar, and Morgan and Peace Silver Dollars. All coins are graded "good" and at least 12 will be in mint condition. Every coin is individually identified and mounted in an attractive glass covered picture frame with easel back for hanging or standing. A grand and valuable remembrance of the rapidly disappearing silver coinage of the 20th century. Educational for your children and grandchildren. Impressive for gift-giving. A treasured conversation piece and a sound investment.

Brilliant uncirculated Morgan and Peace Silver Dollars. Display mounted in 8" x 10" glass covered frame for standing or hanging. A magnificent addition to any collection. Do you have any of these coins in your pocket?

RARE COIN SETS!

from the distinguished "Limited Edition" Fidelity Collection!

If you now possess any of these coins consider yourself fortunate. Each one is becoming exceedingly rare. Indeed they are virtually non-existent outside of the hands of private collectors. Their possession, in choice collector groupings, and at Fidelity's low prices, are surely a wise investment for the prudent collector of valuable coins, from the standpoint of scarcity, history, interest, value and potential worth!

1960 through 1969 Uncirculated Coin Sets!

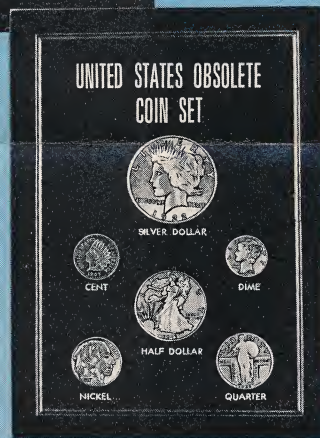

Especially made for collectors! Featuring....

1963 and 1964 MINT SPECIMEN SILVER COIN SETS

The last set of 90% silver coins was minted in Philadelphia in 1964. Even now, 90% silver dollars have as much as tripled in value and more. The coins now in use are only 40% silver, with the dime and quarter having no silver content. As silver becomes in shorter supply (which is happening every day), these coins will be still more valuable. Each 5 coin set contains the half dollar, quarter, dime, nickel and penny of that year, in a beautiful display holder that shows both sides of the coins, and identifies the year of the coins! IN ADDITION to the popular 1963 and 1964 sets, Fidelity has a limited supply of uncirculated sets from 1960-69 (1968 and 1969 10-coin sets include the "S" mint penny and "S" mint nickel from the fabulous San Francisco mint, penny, dime, and quarter minted in Philadelphia. "True Blue" collectors items that will disappear quickly).
